Eventually, she gets her nurse to sneak her into his bed every night for a week, while her mother is away. The Rape of Proserpina, though beginning in violence, at least ends in the compromise that brings us the annual blessing of Spring. King Tereus, for the crime of raping his sister-in-law Philomela and then cutting out her tongue, is served his own soup chopped into a fricassée; Philomela, though, is given her voice back as the nightingale.Titian: Diana and ActaeonTales from Ovid is right; this is far from a complete translation. And his language: "out of their dens in the atom... into the orbit of a smile." He draws imagery from physics or microbiology, from late 20th-century life, that Ovid could never have known. After describing the Ages of Gold, Silver, and Bronze, Ovid comes to the Age of Iron. Here is a short section: first a few lines in the Garth/Dryden translation: 'Twas now the mid of night, when slumbers close Our eyes, and sooth our cares with soft repose; But no repose could' wretched Myrrha find, Her body ruing, as she rould' her mind: Mad with desire, she ruminates her sin, And wishes all her wishes o'er again... And then the Hughes: Midnight. But there were some that were real discoveries. On the last night, her father Cinyras takes a light to see who is this mysterious girl who has been offered to him. Many of the tales I know best through art, opera, or other literature are left out. The claustrophobic landscapePumps like a drumWith the stamping dance of the revellers.The city poursIt's entire population into the frenzy.Children and their teachers, labourers, bankers.Mothers and grandmothers, merchants, agents, Prostitutes, politicians, police,Scavengers and accountants, lawyers and burglars.Builders, layabouts, tradesmen, con-men.Scoundrels, tax-collectors, academicians,Physicians, morticians, musicians, magicians,The idle rich and the laughing mob,Stretched mouths in glazed faces,All as if naked, anonymous, freedInto the ecstasy,The dementia and the deliriumOf the new god. In place of Ovid's heroic hexameters or the regular meter of earlier translators, Hughes paints freely upon the page, sometimes continuing in quasi-regular stanzas for a page or more, sometimes with wide variations of line length. Mankind sprawledIn sleep without a care,But Myrrha writhed in her sheets.To cool the fiery gnawings throughout her bodyShe drew great gasping breaths.They made the flames worse.Half of her prayed wildly—In despair under the crushingImpossibility—and half of her coollyPlotted how to put it to the test.She was both aghast at her own passionAnd reckless to satisfy it.Like a great tree that sways,All but cut through by the axe,Uncertain which way to fall,Waiting for the axe's deciding blow,Myrrha,Bewildered by the opposite onslaughtsOf her lust and her conscience,Swayed, and waited to fall.Either way, she saw only death.Her lust, consummated, had to be death;Denied, had to be death. Over two hundred stories are mentioned in the fifteen books of the Metamorphoses, about half that number treated at length, and Hughes gives only a quarter of those. She tries to resolve it by hanging herself, but is rescued by her nurse, who winks the secret out of her and realizes that the only way to save her is to help her bring her wish about. Hughes, however, expands Ovid's three lines to eighteen, a headlong tumble of invention that surely channels the Browning of The Pied Piper of Hamelin: The god has come, Myrrha flees from his wrath and wanders for nine months, at the end of which she is turned into a tree, the myrrh bush, in the very act of giving birth to Adonis.Luigi Garza: The Birth of AdonisA horrible subject, and Ovid makes the most of it. The hunter Actaeon, for example, who chases upon Diana bathing naked, is transformed into a stag and devoured by his own hounds. show more 2.514 ratings 4.25 out of 5 stars 5 48% (1.197) 4 34% (855) 3 15% (367) 2 3% (81) 1 1% (14) ("bd\_js\_shop";"Shop";"bd\_js\_too long for shipping label";"Sorry, that's too long for our shipping labels";"bd\_omnibus\_ph1\_price\_statement\_suffix";"vs RRP";"bd\_js\_too long";"Sorry, that's too long";"bd\_js\_could not find address try again";"Sorry, we couldn't find the address. True, it is not all violence; there are a few more gentle tales such as Echo and Narcissus or Peleus and Thetis. Here is the beginning of the passage in the original Latin: " de duro est ultima ferro protinus inrupit venae peioris in aevumomne nefas: fugere pudor verumque fidesque,in quorum subiere locum fraudesque dolusqueinsidiaequae et vis et amor sceleratus habendi.[vela dabant ventis nec adhuc bene noverat illosnavita, quaeque prius steterant in montibus altis...[And here it is in an early 18th-century translation by Sir Samuel Garth, John Dryden, and others: Hard steel succeeded then: And stubborn as the metal, were the men. This is perhaps an extreme example, but it bears out another point that Hughes makes in his Introduction: "All Ovid wants is the story of hopelessly besotted and doomed love in the most intense form imaginable." And on that, Hughes delivers. Note how effective is the separation of "Modesty, Loyalty, Truth" to give each word a single line. None less than the tale of Myrrha, who, in an inversion of the usual incest stories, is consumed by the carnal desire to have sex with her father. Hughes omits, for example, the love stories of Apollo and Daphne, Jupiter and Europa, Perseus and Andromeda, Orpheus and Eurydice, Acis and Galatea, or the old couple Philemon and Baucis. But although Hughes is marvelous at depicting the more violent emotions, a dozen or more stories in this vein eventually take their toll: this is not the selection I would have advised had I been his editor. And the story of Pygmalion, whose statue of the ideal woman at last comes to life as Galatea, even has a happy ending. Arachne, who dared to challenge Minerva in tapestry weaving, becomes a spider. But no, he was referring to the original date of Ovid's Metamorphoses themselves, 8 CE, when "the obsolete paraphernalia of the old official religion were lyi The Poetry of PassionThe brief but brilliant introduction by former English Poet Laureate Ted Hughes to his Tales from Ovid says that the poems tell "what is feels like to live in the psychological gulf that opens at the end of an era." He might well have been talking about the end of his own century; the collection was published in 1997. Near the beginning of the story of Bacchus and Pentheus, there is a short passage—three lines of Latin, four in the Garth/Dryden translation—describing the frenzy when the young god comes to town: For now through prostrate Greece young Bacchus roared, Whilst howling matrons celebrate the God: All ranks and sexes to his Orgies ran, To mingle in the pomps, and fill the train. It combines the technique of a horror movie with the sexual pathology of the Salome of Oscar Wilde and Richard Strauss. But he does it often in lines that Ovid did not even write; there are ten lines here—ten brilliant lines—that have no equivalent in the original at all; note how he gets back to some sense of regularity when he returns to direct translation.=====Poussin: The Triumph of BacchusSome of Hughes' flights of fantasy are truly marvelous. Gérard: Pygmalion and Galatea =====I am not sure that it is even right to call this a translation. It is masterly how he handles the suspense, first of all warning the reader not to go any further, then building up the psychological anguish in Myrrha's mind. Raw were the sailors, and the depths were new. .Finally, here is the same passage from Hughes: Last comes the Age of IronAnd the day of Evil dawns.Modesty,Loyalty,Truth,Go up like a mist—a morning sigh off a graveyard.Snarers, tricks, plots come hurryingOut of their dens in the atom.Violence is an extrapolationOf the cutting edgelnto the orbit of the smile.Now comes the love of gain—a new godMade out of the shadowOf all the others. Hughes has no need to add or embellish; he merely has to translate. Sometimes, Hughes follows the original pretty closely; sometimes he illuminates ancient ideas with the language of the nuclear age; often, he introduces passages that are entirely his own. In exile, Ovid wrote two poetry collections, Tristia and Epistulae ex Ponto, which illustrated his sadness and desolation.Being far from Rome, he had no access to libraries, and thus might have been forced to abandon his Fasti, a poem about the Roman calendar, of which only the first six books exist - January through June..
